Wage Scale Announced.

Springfield, O., Aug. 16.—A new wage scale for the next six months was agreed upon here by representatives of the Ohio Electric and allied lines and a committee representing the trainmen. The new scale of wages for trainmen is as follows: First three months, 38 cents an hour; next nine months, 43 cents; after first year, 49 cents. Freight brakemen were reduced from 44 to 36 cents an hour.

Rates on Live Stock Held Unjust.

Washington, Aug. 16. — Freight rates on live stock in western and mountain Pacific territory were found by the interstate commerce commission to be unjust and unreasonable. The commission suggested that the carriers voluntarily reduce rates to 80 per cent of those in effect at present, but not less than 50 cents a hundred pounds.

Some men are so energetic in attempting to take things philosophically that they become prematurely scoured.

DIAGNOSIS OF BUSINESS ILLS

Made by Federal Reserve Board Today.

WORLD CONDITIONS AGAINST PROGRESS

Business Hit Harder by World Situation Than by Domestic Conditions, Board Says.

Washington, Aug. 16.—A new diagnosis of ailments afflicting American business, just made by the federal reserve board, today, showed that world-wide conditions are operating against business progress more severely than any domestic conditions.

Slumps in exports and reduced purchasing at home are shown to be due to world money reactions and post-war conditions generally.

The board's conclusion, after a statement of cold facts, is that America must await the hour when world financial and commercial conditions are stabilized. The board indulges no prophecy when this may happen. It frankly said the situation is too complex for prophecy.

America's export position, reviewed at length, shows that out of America's total crops and manufactured products, valued annually at about $70,000,000,000, about one-twelfth of that amount is exported. Dealing with the slump in exports, the board said that widespread influences are working against recovery of foreign trade. Influences described include a variety of factors of domestic origin.

The board enumerates these as some of the adverse factors:

Disturbance and uncertainty in costs of production.

Lack of a definite competitive basis upon which operations can be developed.

Government control and interference with business in certain lines by various nations.

Restriction of the movement of specie and bank remittances.

Disturbed relations between capital and labor due to efforts to bring about post-war readjustment, necessitated by changes in prices.

It is emphasized by the board that other factors which are entirely outside of control by any country, but must be reckoned with, have to do with lack of adjustment between currency values, giving rise to foreign exchange fluctuations. Besides exchange disorders, the board also cited the fact that there has been a growth of commercial restrictions of various kinds and the development of systems of taxation, which has hampered the buying power of both nations and peoples and placed limitations upon the movements of commodities.

PREFERRED-STOCK ISSUE IS SOUGHT

Application by Power and Light Company, of Youngstown.

Columbus, Aug. 16.—Application was made today to the state utilities commission by the Pennsylvania-Ohio Power & Light company, Youngstown, for permission to issue $1,000,000 par value of its eight-per-cent. cumulative preferred stock for the purpose of reimbursing its treasury for expenditures and for providing funds for additional betterments, improvements and expenditures.

It is planned to sell the stock at not less than eighty-four.

Company officials, urging speedy action on its request, declared that earnings must be twice the dividend charges if preferred stock is issued. They said that while such is not the case with their company, in the next two or three months earnings may drop to such an extent as to prevent issuance of any preferred stock.

Allen Evans, son of Mr. and Mrs. H. B. Evans, of Richwood, who was operated upon at Orchard hospital last Saturday, is reported to be recovering nicely.

AN INFORMAL OFFER FOR MUSCLE SHOALS

Washington, Aug. 16.—Secretary of War Weeks, today, received an informal offer for the Muscle Shoals, Alabama, nitrate plant, in competition with the offer made by Henry Ford. The secretary said the offer was made by telegraph and would be followed by a detailed proposal in writing. He refused to disclose the name of the new bidder or the sum offered.

Secretary Weeks and Secretary Hoover spent most of last night studying the Ford offer and the secretary said that as soon as the new bid is in, he feels that he will be able to make a counter proposal to Ford and will call Ford here to consider the whole question. The new bidder probably will be called into the conference, too.

LAYING THE BLAME ON FREIGHT RATES

Farmers, Economists and Bankers Before Committee.

Washington, Aug. 16.—A large army of farmers, economists and bankers was on hand before the interstate commerce commission, today, to testify that the present precarious situation of the farmers who, they claim, are facing bankruptcy, is due to high freight rates.

Hearings resumed before the commission on petitions to reduce grain freight rates on railroads between the western and mountain Pacific divisions brought testimony from J. W. Shorthill, of York, Nebraska, head of the Farmers' National Grain Dealers' association, whose membership covers twelve states, that the price paid the farmer is always less freight rates to the place where the price is fixed.

As an illustration, Shorthill said that the price of forty-six cents a bushel of corn means forty-six cents less eleven cents freight rate and minus handling charges, the farmer actually getting thirty-three cents—this on a basis of 1914 production costs. He also declared it cost 118 bushels of wheat to ship a carload of wheat in 1914, while at present rates it costs 372 bushels.

A Big Celebration.

Winsted, Connecticut, Aug. 16.—This city's celebration of its 150th anniversary was in full swing today, with the feature of the day's events a big historical pageant held in the open air on the site of the town's first meeting-house. One hundred and fifty residents depicted historical scenes of the city from 1777 to 1800.

Results in Death.

Cincinnati, Aug. 16.—Dye from a straw hat is said by Christ hospital authorities to have infected a boil causing blood-poisoning which resulted in the death, today, of Miss Lola Simonson, nineteen, Oxford, Ohio.

Condition Serious.

Washington, Aug. 16.—The condition of King Peter of Serbia is "less satisfactory" and his illness now is almost critical, according to a cablegram received at the Serbian legation here from Belgrade, this afternoon.

Mr. and Mrs. John H. Rawlings, of the J. H. Rawlings & Son store, have returned from a buying trip to New York City.

Based on the records of deaths in former years, it is estimated that 500 persons now walking the streets of New York City will be killed by motor vehicles before the end of 1921.

Only 309 automobiles were reported stolen in France last year, while more than fifty per cent. were recovered. Arrests were made of 2,000 persons suspected of the thefts.

The average man is paid much less than his wife thinks he earns.

PROBE DEATH OF MRS. DE BRITO

Cause of Suicide of Beautiful Brazilian Woman.

PERSECUTION IS ALLEGED IN CASE

Claimed Threats Are Made Against Woman by Editor of Small Western Magazine.

Chicago, Aug. 16.—A complete investigation into the death of Mrs. Mary de Brito, former wife of a distinguished Brazilian and winner of several beauty contests, will be asked of Coroner Peter M. Hoffman and the police, Mrs. Edward Weller announced today. Mrs. de Brito ended her life in Mrs. Weller's home by turning on the gas.

It is believed that Mrs. de Brito ended her life because of the threats made against her by the editor of a small magazine.

Several weeks ago, Mrs. de Brito obtained a copy of the magazine when traveling on a train. She was so shocked by its contents that she wrote the governor of North Dakota, where the magazine is published, expressing the opinion that the publication should be suppressed.

Mrs. de Barito's letter to the governor was forwarded by his secretary, it is said, to the editor of the magazine.

Soon after her return to Chicago, it is declared, Mrs. de Brito received a vituperative letter from the magazine editor. Later, a roughly dressed man called at the Weller home and made inquiries concerning Mrs. de Brito.

Mrs. Weller believes that the letter and the man so frightened Mrs. de Brito, who was of a highly nervous temperament, that she took her own life.

THE INTEREST ON POSTAL SAVINGS

Hays May Not Persuade Congressmen To Increase It.

Washington, Aug. 16.—Postmaster General Hays may not be able to persuade congress to increase the interest on postal savings from 2 to 3 per cent. The announcement which the postmaster general made during a recent visit to Indiana that he proposed to recommend such an increase in the interest rate on postal savings has served to stir up some very active opposition among the men interested in the savings banks of the country. This opposition, representatives of the savings banks say, will make itself felt if the postoffice department presses the proposed increase before congress. The savings banks, as well as a large number of national and state banks that maintain savings departments, make the point that there was an implied promise on the part of the government when the postal savings system was established that the government would never enter into competition with the banks.

WAYNESVILLE MAN VICTIM OF THUGS

Shot Through Arm and Thrown from Auto.

Middletown, Aug. 16 — Harry Earnhardt, thirty-five, hardware merchant of Waynesville, Ohio, who has been missing from his home since August 9, was found lying along the Dixie highway near Franklin, last evening, shot through the arm and dazed, physicians think, from an overdose of drugs.

Earnhardt, who is married, tells an incoherent story of picking up two strangers in his Ford on the ninth and thinks he has been with them all the time. Yesterday, he says, a woman was with them and it was when she whispered to him to pretend to faint, that she untied his hands and he escaped by falling from the car.

TWO MEN SLUGGED BY PAY-ROLL BANDITS

Robbers Make Escape with $95,000 in Cash.

Springfield, Ill., Aug. 16.—A. E. Traiger, auditor of the Peabody Coal company, stated that $95,000 was the sum secured in the pay roll robbery at Kincaid, when four bandits attacked Jerome Lockhart, deputy sheriff, and F. M. Jones, bank cashier, on the main street of Kincaid, knocking them down and fleeing with the money before a number of witnesses could interfere. Lockhart, who is 48, is a son of S. P. Lockhart, a former mayor of Taylorville, Ill., who was shot and permanently crippled in a battle with pay roll bandits in 1904. The money was to have been used in meeting the pay roll of the Peabody mines in the vicinity.

Measure Submitted.

Washington, Aug. 16.—Ten years' imprisonment and $10,000 fine for any persons offering for sale or purchasing at less than face value any government bond or obligation, is provided in a bill introduced in the house, today, by Representative Herrick, Oklahoma.

THE BAT WRAP, THE VERY NEWEST THING IN FURS

This attractive wrap was shown at the fashion show which is part of the Pageant of progress in Chicago. It is made of mole and Russian ermine and cut to the style of a flying bat.

BRIAND COMING TO CONFERENCE

Will Head French Delegation in Washington.

FRANCE ACCEPTS THE AMERICAN INVITATION

Hope for Diplomatic Meeting of First Order Is Strengthened by France.

Washington, Aug. 16.—The hope of American officials that the disarmament conference will be a diplomatic conclave of the first order was strengthened when France informed the state department that she would send her premier, Aristide Briand, at the head of her delegation of diplomats.

The decision is expected here to be followed by similar moves on the part of the other powers, giving the conference much of the plenary authority possessed by the council of "heads of states" at Versailles.

The French notification came in the form of a message from Premier Briand, transmitted through the American embassy at Paris.

Meantime the administration's preparation of its own part in the conference was advanced by a request sent to congress for an appropriation of $200,000, as an initial budget to pay expenses of the American representatives and of a secretariat-general. The estimate worked out by the state department and the budget bureau, immediately was taken under committee consideration in the senate and probably will receive early favorable action.

The sum fixed in the request and the data accompanying it apparently disposed of any expectation that this government would pay expenses of any visiting delegations, for congress was informed it was for the secretariat-general alone. It was indicated that a later appropriation would be asked should the printing bill exceed present expectations or should the conference last more than two months.

The message of Premier Briand in accepting the invitation omitted any attempt to discuss the subject matter of the conference, but it is understood that separate informal negotiations are under way, among all the interested nations relative to what matters are to be considered within the scope of the discussions.

Fire in Bunkers.

London, Aug. 16.—Fire has broken out in the coal bunkers of the British steamship, Saxon, which is now enroute for Sierra Leone, but is under control, said a Lloyd's despatch this afternoon. Among the 500 passengers on board is General Jan Christian Smuts, premier of South Africa. He is enroute home at Capetown. The Lloyd's despatch said that all of the passenges were well.

A Cleveland Fire.

Cleveland, Aug. 16.—Damage amounting to nearly $200,000 was caused by a fire which today raged in the dry kiln and storage plant of Grief Brothers Lumber company coopers, at Willey Avenue and Big Four tracks here. Scores of families were driven from their homes by the flames, which are still raging although now thought to be under control.

Is In Custody.

St. Joseph, Missouri, Aug. 16.—Mike Wren, taken into custody at Gower, nine miles from here, today confessed, according to officers, that he murdered Ross Hammond, near Bradyville, Iowa, a week ago and buried the body in a shallow grave in a cornfield. Hammond was shot twice, Wren is said to have declared.

ATTORNEY GENERAL GIVES A RULING

Statement Has Important Effect on Butter Industry.

Washington, Aug. 16.—Attorney General Daugherty, in an opinion rendered to Secretary of the Treasury Mellon, today, held that butter manufactured from sour cream, the acidity of which has been reduced by the use of lime water, is not adulterated butter and therefore not subject to a tax. This opinion overruled a previous opinion by former Attorney General Palmer and affects large stores of butter in the Middle West.

The attorney general stated, however, that this opinion would not open the door to the use of "filthy materials" in the manufacture of butter.

Cleveland Denied New Depot.

Washington, Aug. 16.—The application of the New York Central, the Cleveland, Cincinnati, Chicago and St. Louis and the New York, Chicago and St. Louis railroad companies for authority to erect a passenger terminal in Cleveland was denied by the interstate commerce commission. "We are not persuaded by the evidence now before us," the commission said, "that the terminal problem has received adequate consideration." The committee added that it was possible further presentation of evidence might make possible a different conclusion. The proposed station was to cost $60,000,000.

Charged With Murder.

Calgary, Alberta, Aug. 16.—Dr. R. M. Brumfield, in jail here awaiting transportation back to Roseburg, Ore., on a charge of murder in connection with the alleged slaying of Dennis Russell July 14, declined food and is so weak that he may have to be taken back to the states on a stretcher. Brumfield has eaten nothing since Saturday noon. He refuses to say a word about the crime on which he is charged.

Whitacre to Succeed Kearns.

Columbus, Aug. 16.—T. P. Kearns, Dayton, inspector of workshops and factories, was dismissed by Director of Industrial Relations Tetlow, Ernest C. Whitacre, Columbiana county, former member of the legislature, is slated to succeed Kearns. He now is chief clerk in the department. Fred Lange of Cleveland, safety director, angered over Kearns' dismissal, tendered his resignation.

Occupation Upheld.

Washington, Aug. 16.— Occupation of Haiti by the marine corps is upheld in an exhaustive report of conditions submitted by Major General Commandant Lejune, today, to a senate investigating committee. The report stresses Secretary Denby's statement that on his tour of inspection of the island in March, last, he saw evidence on every hand to convince him that the continued presence of the marines is desirable.

Receiver For Newspaper.

Detroit, Aug. 16.—Announcement of the appointment of the Union Trust company as receiver for the Detroit Times, an evening newspaper, was made following a petition for involuntary bankruptcy filed in federal court. James Schermerhorn, president of the Detroit Times company, stated the paper would not suspend publication.

School Bonds Sold.

Columbus, Aug. 16.—The final obstacle in the path of the building program of the board of education vanished when $2,850,000 worth of school bonds were sold to Hayden Miller & Company of Cleveland. The remaining $150,000 of the total of $3,000,000 issue was taken by the sinking fund trustees.

Cincinnati Shooting.

Cincinnati, Aug. 16.—Perry D. Orme, fifty-one, is in general hospital fatally shot by Raleigh Kincart, forty-five, following an altercation in a Ninth street garage, this morning. Kincart, who surrendered to the police, says he fired in self defense. The men were partners in carpentry work.

TRY TO CLINCH MURDER CASE

Against Two Persons Held in Los Angeles.

STOCK OF GUN FOUND IS FULLY IDENTIFIED

Officials Locate the Pawnbroker Who Sells Weapon—Defense Planning Its Fight.

Los Angeles, Aug. 16.—In a meeting, today, between Arthur C. Burch, charged with the murder of J. Belton Kennedy and E Rosenthal, a pawnbroker, who claims to have sold the gun with which Kenendy was slain, District Attorney Thomas Lee Woolline believes the state will obtain the evidence which will clinch the state case against Burch. Rosenthal will be asked to identify Burch as the purchaser of the gun.

Rosenthal, late last night identified the stock of a twelve-gauge, double-barrel shotgun that was found in the surf at Santa Monica the morning after Kennedy was slain, as that of a weapon he sold to a man between July 25 and July 28. The pawnbroker first was shown pictures of the gun and later was shown the stock itself. He positively identified it by "unmistakable markings," as that of the gun he had sold.

District Attorney Wooline arranged to take Rosenthal before Burch, today, to learn if Rosenthal could identify the accused man as the purchaser of the gun. Burch, it was pointed out, arrived in Los Angeles July 24.

Ralph S. Obenchain, Chicago attorney whose divorced wife, Mrs. Madalynne Connor Obenchain is jointly accused with Burch of Kennedy's murder, announced today that plans are being made to fight the legal battle for Mrs. Obenchain's and Burch's freedom with every available resource. He asserted that a positive defense would be made and an effort made "not only to prove Mrs. Obenchain and Burch innocent, but to try to solve the mystery of the crime and find out who did the shooting."

It became known, today, that no transcript was taken of the grand jury proceedings when Burch and Mrs. Obenchain were indicted. It is not required by statute. Consequently, the defense will find it necessary to question all witnesses summoned before the inquisitorial body to learn exactly what evidence the state has obtained.

A Secret Note.

Los Angeles, California, Aug. 16.—A secret love note received by Mrs. Madalynne Obenchain, indicted with Arthur C. Burch for the murder of J. Belton Kennedy, on the day she was married to Ralph S. Obenchain, her divorced husband, in Los Angeles, about a year and a half ago, was sought today as new corroboration of her story.

The note, written by Kennedy, was said to have been slipped into Mrs. Obenchain's hand and read, by her while she still wore her bridal gown, only a few minutes after she and Obenchain had been wedded—"for better or for worse."

That such a note was sent by Kennedy to Mrs. Obenchain on her wedding day was revealed by Mrs. Thelma E. Smith, of Los Angeles, Mrs. Obenchain's cousin. Mrs. Smith said it was known by her and several others that Mrs. Obenchain received the letter, which was sent by special delivery.

The love note now missing became an important new element in the case, because it was claimed it will be substantiation of Mrs. Obenchain's story that her love for Kennedy was reciprocated and denial of the prosecution theory that she pursued the man who was slain.

Whether Obenchain, who is in Los Angeles to direct Mrs. Obenchain's defense, knew of the note sent to his wife by Kennedy on the day she was married, was uncertain. Obenchain has been quoted as saying he permitted Mrs. Obenchain to obtain a divorce because he learned she really loved Kennedy.

THE ANGLO-FRENCH ALLIANCE MENACED

By Grave Problems Presented the Supreme Council.

London, Aug. 16.—"Questions arose during the supreme council meeting at Paris which menaced the solidarity of the Anglo-French alliance," Premier Lloyd George told the house of commons, this afternoon.

The premier added, however, that the spirit of the alliance is as strong as ever.

"I feel that the alliance is the guarantee of peace in Europe," said the premier in conclusion.

The premier said that the Upper-Silesian question had been complicated by what he had described as the "delusion of the French public that the seizure of the mines was essential to French security.

"If an injustice has been done," warned the premier, "it would provoke a conflict, perhaps in the near future. The position of the league of nations will be enhanced if it successfully deals with this most complicated issue.'"

PELLEGRA INCREASES IN SOUTHERN STATES

Claim of Public Health Service After Investigation.

Washington, Aug. 16.—As a result of its special investigation, the public health service reported to President Harding that food shortage in southern states has assumed the proportions of a famine only in "a scientific, restricted sense," but undoubtedly has been accompanied by an increase in pellagra.

The findings of the public health officials, the report said, were based largely on incomplete statistics submitted by southern state health commissioners at a recent conference here.

A memorandum of supplemental information accompanying the surgeon general's letter was summarized as follows in a statement issued at the white house:

"Information indicates a definite increase in pellagra this year in Alabama, Arkansas, Mississippi, Oklahoma, Texas and probably North and South Carolina. Some evidence also indicates an increase in Georgia. In Kentucky and Virginia testimony points to a decrease. Conservative estimates indicate 5,000 deaths and 100,000 cases of pellagra in the country in 1921."

Liberty Bonds.

New York, Aug. 16.—Closing Liberty bonds: 3½, 88.80; second 4, 87.60; first 4¼, 87.82; second 4¼, 87.72; third 4¼, 91.86; fourth 4¼, 87.88; Victory 3¾ and 4¾, 98.74.

Australian and America Must Stand Together, Says Premier.

America and Australia must stand together in guarding against future war in the Pacific, according to a message from Premier Hughes, of Australia, presented to the state department by Edward E. Eagle, an American citizen, of Selma, Alabama, who stated that he had been asked to call on the president and deliver the message. Mr. Eagle has just returned from a five-year tour of the world. He is principal shareholder in Eagle & Company, Ltd., international traders and shippers. He is an authority on international committee and did research work in political and social science at Oxford. Lloyd George broke all precedents when he gave a written letter confirming political and commercial news of Mr. Eagle, which will be published in the United States shortly. Lord Northcliffe has called Mr. Eagle "the most travelled American."

INDUSTRIES OF STATE MENACED

Mexican Profit-Sharing Law Breeds Trouble.

NEW MEASURE GOES INTO EFFECT TODAY

State of Vera Cruz Badly Disturbed and Employers May Close Plants.

Mexico City, Aug. 16.—Many industrial plants throughout the state of Vera Cruz are threatened with a shut-down because of the state profit-sharing law which goes into effect toady. The law, if enforced, will compel the companies to give one-half of their profits to the workers.

A number of mineral and oil companies are affected. An appeal was made to the state government to reduce the taxes, but it was rejected. The government informed the owners of mineral companies that Germany and Russia would soon be issuing silver money which would assure higher prices for the metal and also a greater demand.

The teachers at Puebla went on strike against a reduction of wages and a stormy mass-meeting was held to protest to the governor of the state of Puebla. Governor Sanchez was present and addressed the teachers telling them they wanted too much.

"When I was a young man, I lived well on fifty cents a day," said the governor.

Good Roads Bill.

Washington, Aug. 16.—The modified Townsend good roads bills creating a federal highway commission and appropriating $100,000,000 for the construction of an interstate and intercounty system of highways, was taken up by the senate, today, on a motion of Senator Townsend, Republican, Michigan.

May Write Insurance.

Columbus, Aug. 16.—Liability insurance companies may write workmen's compensation insurance for employers engaged in maritime or admiralty business, including Lake Erie and Ohio river passenger and freight boats. This ruling is announced by State Insurance Superintendent Gearheart.

The Oil Industry.

Tampico, Mexico, Aug. 16.—There was no indication here, today, that the new Socialistic profit-sharing law in the state of Vera Cruz would cripple the oil industry in that state. The companies are continuing drilling operations and it was reported today that four new wells were being brought in.

American Marines Accused.

Washington, Aug. 16. — Charges that American marines sent to San Domingo by this government committed murders, terrorized the people and burned their homes, were presented to the senate committee investigating conditions since the American occupation in 1916, by Horace G. Knowles, adviser and assistant to the Dominican national commission in the United States.

Government Rail Control Ends.

London, Aug. 16. — Government control of the British railways, begun at the opening of the world war, has ceased. The stockholders of the railway companies during the last seven years have had their dividends guaranteed on a pre-war basis. Under the new act rates and fares will be fixed by a tribunal. Wages and labor conditions generally also will be in the hands of the tribunal.

IRISH PEACE IS IN THE BALANCE

Continued from Page One.

de Valera will be authorized to make.

Beginning early in the morning, thousands of persons gathered outside "Mansion House"—the official residence of the lord mayor—and greeted the Sinn Fein officials with cheers as they arrived in groups Prominent Irishmen came to Dublin from all parts of the island to witness the opening of the parliamentary session

The sessions will be held in the round room of "Mansion House" which has space to accommodate 150 persons It was planned to have the opening session public and shortly after the doors were thrown open all available seats were occupied

Michael Collins, commander-in-chief of the Irish republican army and several personal friends were among the earliest arrivals and they were given a tremendous ovation

Richard Mulcahy chief of staff of the Irish republican army, slipped in without being recognized He had acquired the habit of secrecy while the British authorities were scouring Ireland for him in the days before the armistice

Arthur Griffin founder of the Sinn Fein and a personal friend and adviser of de Valera, attempted to get through the crowd without being recognized but was unsuccessful Friends greeted him and when the crowd found out his identity hundreds rushed forward in an attempt to shake him by the hand.

But the biggest ovation of all was given to de Valera The crowd burst into wild cheers when he put in an appearance The air was filled with fluttering handkerchiefs and waving republican flags De Valera bowed and smiled and waved his hat He had great difficulty in getting past the hundreds of admirers who surrounded him

At 10 30 o'clock, the members of the Dail Eireann, many of whom had been released from jail a week ago to attend the meeting entered the council chamber Immediately the spectators in the gallery began cheering and it was some minutes before quiet prevailed.

Session Opened.

The session was called to order at 11 o'clock by Speaker Sean Kelly After he had taken his seat, prayers were said in Gaelic and then the roll was called

The first name called by the clerk was "Mr Anderson," a Unionist from one of the North Ireland counties There was no answer and the crowd broke into laughter at the thought of a Unionist—the most hostile opponents of the Sinn Fein in Ireland—attending a strictly all-Republican meeting

Another name was called early in the roll, that of Sir James Craig, premier of the Unionist government of Ulster There was no response Sir James was in Belfast far away from the gathering of Republicans

The clerk called in all 180 names Of these, 132 were Sinn Feiners and forty-eight were unionists One hundred and twenty-seven Sinn Feiners answered the roll-call After the members had taken the oath, the assemblage began electing officers

As the deliberative sessions will be conducted in secrecy nothing will be known as to the Sinn Feiners' decisions until an official communique is issued It is probable that a communique will not be given out until the parliament has completed its work

England Waiting.

London, Aug 16—All eyes in England were today strained toward Dublin, where the Sinn Fein parliament is holding its most momentous session to debate the English peace terms

The government's offer and the meeting of Dail Eireann were the most prominent topics in the morning newspapers In some quarters, the hope was freely expressed that the Sinn Fein parliament would order a plebiscite in Ireland upon the English offer

"I hope the negotiations will be continued," said George Russell, a prominent writer who was interviewed by the Dublin correspondent of the Daily News

"If Dail Eireann is unable to come to an agreement, the Irish people should be given an opportunity to express their views through a referendum"

The Daily Telegraph called attention to the remarkable effect of the publication of the Lloyd George and de Valera correspondence in consolidating opinion in England

"Not a single voice defends the viewpoint of the Sinn Fein leaders," said the Daily Telegraph

"The unanimity is even greater than upon the decision of the British government to go to war against Germany"

English Comment.

The London Times declared "that the Sinn Fein Irish have been offered peace with both freedom and honor

"Will they reject it?" asks the Times

"There is difficulty in grasping why any one should prefer the status of Latvia to that of Canada or Australia, but apparently the Sinn Fein does," said the Daily Chronicle

The Morning Post, a Tory newspaper, expressed fear that the prolonging of the negotiations would only end in an irreconcilable disagreement. This newspaper asks

"Why has not a word been vouchsafed in parliament concerning the proposals as affecting the British constitution and the constitution would be affected more vitally than by any other event since the revolt of the thirteen colonies in America

Harold Cox, prominent political economist, writing in the Morning Post said

"For more than a year I have been urging the only sound solution of the Irish problem, which is this Expel southern Ireland from the United Kingdom and the British empire. With such people, it is impossible for Englishmen to dwell in peace Therefore, it is wiser to abandon the policy of attempted reconciliation and face the consequences of complete separation"

De Valera Speaks.

Dublin, Aug 16—"We mean to fight for our principles, we mean to die for them if necessary," declared Eamonn de Valera, head of the Sinn Fein government in Ireland, in opening the session of the Dail Eireann here today

De Valera quoted from a speech by Premier Lloyd George regarding the freedom of small nations

"These are our principles, too" continued the Sinn Fein leader "They are now and always will be"

Silence so deep that one could have heard a pin drop reigned while de Valera was speaking The Sinn Feiners declared that it was the best speech their leader had ever made As de Valera ceased, the audience rose in their seats and cheered lustily

De Valera declared that Ireland must be a republic

"It is practically impossible to negotiate with the present British government," he continued, "because it is unprincipled It is like negotiating with a man with a pistol to your head We are fighting for human progress and civilization

"The Irish republic has been sanctioned by the will of the people The Irish people recognize only the Sinn Fein ministry and Dail Eireann as their government"

De Valera continued "Premier Lloyd George told the American soldiers that they were fighting for the principle of independence and that when they came to Europe they were fighting for the liberty of small nations The principles that Lloyd George expressed on that day are ours

"Dail Eireann will consider proposals in private and then will communicate the decision at a public session"

De Valera said that Dail Eireann would formulate a reply which would be sent to London

"The issue at stake," he added, "is peace or war with Ireland The Irish people have not only by their will sanctioned a republic, but they have solemnly declared that they would give up their lives to make their expression effective

"We stand for principle"

The speaker was interrupted by applause when he said that the Irish would die for the political principles they held dear. Five women were sworn in as members of the parliament, including Countess Markiewicz, who was released from prison not long ago

Sean Kelly, the speaker, declined reelection, so the position was given to Dr. MacNeill.

Frank P. Walsh of Kansas City and New York, occupied a seat on the speakers' platform

There were a large number of young women in the spectators' gallery. The walls of the room were decorated with the coats of arms of the Dublin lord mayors since 1821

When it came time to sign the roll after the oath had been administered, Mike Collins was the first to put down his signature and Arthur Griffith, who sat beside him, signed next amidst an outburst of cheering

INDUSTRIAL SITUATION SHOWS UPWARD TREND

As Reflected in Electro-Power Loan Figures.

PER CENT. OF GAIN FOR MONTH PLACED AT 13.2

Figures Are Compiled by Ohio Committee on Public Utility Information.

A steady trend toward improved conditions in Marion is seen in the fact that many of the city's industries and manufacturing plants are using much more electricity for power purposes than they were a month ago.

During the week ended July 9 there were generated in Marion 23,062,428 kilowatt hours of electricity in Marion.

During the week ended July 16, 32,409,988 kilowatt hours of electricity were generated; 32,867,101 during the week ended July 23 and 32,929,598 during the week ended July 30. The per cent. of gain of the last week over the first was 13.2.

Power records compiled by the Ohio committee on public utility information indicate that there was 27.1 per cent. more electricity distributed here during the last week of July than during the first week.

This is the first time there has been a decided increase in the amount of electricity generated for several months, the Ohio committee's records show. During March, April, May and June there was a decrease from week to week in many instances.

Central station men say the increase during July is an indication of improvement in business conditions, pointing out that many industries that were using no electricity, or practically none, two months ago for power purposes, now are demanding an increasing amount of energy to turn their machinery.

In twelve cities of the state, from which central station records were compiled by the Ohio committee, 32,929,598 kilowatt hours were produced during the last week of July, while 29,082,428 kilowatt hours were generated during the first week, an increase for the month of 13.2 per cent.

All of the twelve cities—Cleveland, Cincinnati, Toledo, Columbus, Dayton, Akron, Youngstown, Canton, Warren, Lorain, Alliance, and Marion—showed a gain of electric energy production at the end of the month over the first, with the exception of Toledo, which showed a slight loss. This indicates there is a general trend throughout the state toward improvement of business conditions.

While light and power companies are not generating nearly as much electricity now as they were a year ago at this time, the increase during July is a hopeful sign that business is on the road to recovery.

Baker's band will furnish the music for the Merchants' picnic at Lincoln park Wednesday afternoon and evening.

SOCIETY

Mr and Mrs. A. L. Cull, of No. 1067 east Center street, entertained at a family dinner Sunday in honor of Mr Cull's father, Jacob Cull, of Bain avenue, who celebrated his eightieth birthday. These Unusually Attractive New

Anderson Ginghams

In Becoming and Out-of-the-Ordinary Patterns

only 50c a yard

No matter where you may go you will find no other ginghams to compare with the genuine Anderson goods. For no other gingham manufacturer has ever been able to combine such splendid quality with such unusually attractive and desirable patterns.

These fresh, new Anderson Ginghams, as you will plainly see, are of splendid quality—between 31 and 32 inches in width—and come in a great range of charming checks, blocks and plaids—the like of which has not been seen this season.

A great many folks have been awaiting the arrival of these materials. You will see a busy stir around this counter these next few days, for there are many, many new dresses to be made between this and the first school bell next month.

We feel certain that you will find nothing in town to compare with these splendid new Anderson Ginghams at such a low price of 50c a yard.

Some of the patterns included in this shipment are being shown in our Center Street window this evening.

ANNOUNCING

THE REMOVAL OF

HOCH MOTOR SALES COMPANY

We are moving today into our new and better quarters, formerly the Overland Garage at 126 south Prospect St., more recently occupied by the Marion Lexington Co. We will make this our permanent headquarters until that time when our new building will be erected at corner of Pleasant and south Prospect streets. And it it is our intention to, at that time, convert our now new quarters into a Used Car market.

New Location Better Equipped for Service.

Wednesday Morning Shoppers Grow More and More—

Why Should'nt They With Such Bargains As These To Reward Them!

Then, besides, it's more comfortable shopping during the cooler morning hours. Service is better, too. So with these advantages coupled with low priced specials as advertised below, the New York Store, though always busy, should fairly hum with activity tomorrow. First, we mention—

A Sale of Lovely Wash Blouses at Only

Formerly Priced Up To $4.00 Now

$1

There's a wide assortment of styles among these—some voiles, batistes, organdies and fancy flaxons. For the most part they are crisp and new: others have been placed in this group for clearance as they're slightly soiled from display.

Blouses for Jumper Frocks

Beautiful new ones of white materials with exceptionally ornate collars and sleeves that add to the smartness of the new jumper frocks. Priced at $1.98 and $2.50.

The Domestic Dep't Offers These Bargains—

Just Till Wednesday Noon

White Outing Flannel, the regular 17c grade...*12½c yd.*
Hill's Bleached Muslin.....*5 yds. 89c*
Unbleached Toweling, cotton twilled, 18 in. wide...*7c yd.*
72x90 Bleached Sheets, made of fine sheetings...*75c ea.*
70x80 Cotton Blankets, $3.00 grades.....*$2.19 pair*

36 Indian Head, linen finish.....*25c yd.*

100 White Dresses will go Tomorrow at Choice

They Were Priced At $2.00 and Up To $5.98.

$1

And then there are some colored ones among them, but by far the greatest number are white, and the size range includes all from 2 years upwards to 14 years of age. In some sizes there's only a few, so come early.

They're of organdies, Swisses and voiles—all new 1921 Summer styles that feature ruffles, tucks, lace and ribbon trimmings. All are wonderful values.

All Sales Final None Exchanged No Refunds

Another Sale of Aprons

We can never get too many of this certain style, it seems. Another ten dozen has arrived and will not be placed on sale until tomorrow a. m. They're made of light percales in that neat belted, sashes, pocketed and tie rac trimmed model that has the square neck and opens in front. All sizes are $1.00.

$1.00

$3.50 Table Cloths—$1.98

White ones and others made of Bates' best colored damask in blue, red or buff colored patterns. The white ones are of good mercerized damask. All are in good sizes, plenty large enough for average tables.

Women's Union Suits—39c

Regularly they're 59c suit. They're fine knit garments, not seconds, but perfect in weave. They're knit in the low square and V-neck styles and have the lace trimmed knee. All sizes 36 to 44 only 39c suit.

SCHOOL BOARD DEMANDS THAT EXTRA MILL LEVY

It Is Needed for Tuition Purposes Coming Year.

LAW REQUIRES BOARD MUST ASK THE AUDITOR

The Board Last Night Devotes Major Part of Session To Ratifying Caucus.

Ratification of the action of the caucus last Tuesday night in adopting a new salary schedule for grade school principals was voted at the regular meeting of the board of education Monday night in the Harding High school building. Three janitors were employed. The board approved the placing of fire insurance on the new and remodeled buildings and passed more than an hour and a half receiving bids and hearing representatives of electrical concerns demonstrate the value of fixtures for the new Vernon Heights building.

Fixtures were demonstrated by representatives of the United Electric Supply company, Ammann Hardware company, J. E. Lewis company, Marion Willys Light company and the Paschall Electric company. In addition a bid was received from the Star Electric company.

The board did not select a design for the building and no action was taken on the bids, which were for several different styles of lighting. Representatives of Warner & Edwards and Uhler-Phillips presented the matter of shades for the Vernon Heights building, but no action was taken on this question. It was decided to hold an adjourned meeting Friday night for the purpose of disposing of both the lighting and shade questions.

New Principals' Salary Schedule.

The new salary schedule for grade school principals bases the compensation on the number of teachers in a building instead of on the number of rooms. According to the new schedule principals of buildings with six teachers or less will receive $10 a month in addition to their regular salaries as teachers, those in buildings with more than six and less than nine teachers will receive $15, those in buildings with more than nine and less than twelve teachers $20 and those in buildings with twelve or more teachers $25.

Amounts of fire insurance determined upon for the new and remodeled buildings are Oakland Heights, $50,000; Central, $40,000; Vernon Heights, $60,000, and Main street, $25,000. This is distributed to A. W. Kette & Company, $30,000; Llewellyn agency, $30,000; Paul J. Tobin, $20,000; George S. McGuire, $7,500; S. R. Rauhauser, $7,500; E. Katz, $10,000; E. J. Knauss, $20,000; Cleveland & Walker, $10,000; C. F. Pace, $20,000, and Orians & Justice, $20,000.

Want That Extra Mill.

Harry Wedertz was named janitor of the new north Main street building. John Bland assistant janitor at the Central building and H. H. Gruber, janitor of the new Vernon Heights building.

The board, by common consent, authorized the clerk to request from the county auditor the one-mill levy for tuition purposes. This additional levy was collected for the first time by the board last year and regulations provide that formal request for the funds must be made by the board each year.

MISS BERNICE PATTERSON WILL WED HARRY PACE

Ceremony To Be Performed at Lebanon Wednesday.

So King George is compelled to economize? Those king jobs possess less appeal every day.

Anyway, Mexico's statement that she is the land of opportunity seems to have appealed to Banker Spurgin.

Let us hope that none of our fair daughters of thirty, or thereabout, will forget themselves next Saturday and tell about having seen the DeWitt Clinton train at the Chicago world's fair.

Upon second though, the people who have been telling us that the corn wasn't filling out may desire to revise their statements.

Why wouldn't it be the fine thing for each paragrapher in the state to write a paragraph a day to fill—not make good—Bob Ryder's column in the Ohio State Journal till Bob is well?

The mystery ships along the coast may be passe, but out here in the Middle West the liquid distributors seems to be the mystery autos.

About all the back precincts being in, it is safe to say that the voters at last Tuesday's election in Ohio clubbed about every proposal for public expenditure wherever such proposal showed its head.

What surprises us is that the advocates of a constitutional limitation of fortunes haven't insisted that there be a maximum limit to the other fellow's and a minimum limitation to their own.

Some legislature might gain lasting fame and endear itself to the great majority by refraining from passing any new legislation and killing about ninety-five per cent. of what we already have.

The conversion of the candy people may have been due to their conviction that they were slowly, but surely, doing to death the goose that was laying for them the golden eggs.

One is just about bound to question the wisdom of the Chicago judge who allowed a Windy City woman $75 a month alimony on her showing that her husband was able to pay it because in addition to his pay of $165 he made $200 a month by shortmeasuring the customers at the gasolene filling station at which he worked.

"I am never deeply impressed," remarked the fellow who lives next door on the way down town this morning, "with the religious fervor of the man who places less on the contribution plate than he tips a waiter for serving him a meal."

Why the call for all this talk about shark skin as a substitute for leather when cow hides are a drug on the market? In any event it would take as much labor to make a pair of shoes from shark skin as from leather, and labor represents eighty-seven per cent. of the wholesale cost of a shoe.

We will concede, for sake of argument, that the coming fair will be bigger than ever before, but before accepting the view that it is going to be better, we want to know whether the good women of the Prospect Street Methodist church have arranged to produce the apple pies like grandmother used to bake.

There is one respect in which all of us in this old world of ours are pretty much alike: all of us agree that the prices of the other fellow's labor, material or product should be reduced materially.

"Sometimes I feel that the advocates of prohibition have gone about the thing the wrong way," observed the restaurant philosopher at luncheon today. "What they should have done was to have secured legislation to compel every citizen of legal age to make and consume a fixed number of gallons of booze each year, and trusted to the contrariness of human nature to bring about the result they desire."

Sketches from Life — By Temple

"Wish't I Had th' Nerve!"

MR. HAYS INVITES CRITICISM.

Postmaster General Hays has taken a very practical method of obtaining suggestions as to the conduct of the postoffice department. He has issued an order directing all postmasters throughout the country to "clip from all newspapers or periodicals" published in their respective jurisdictions and printed in the English language all comment, favorable or unfavorable, and all suggestions or other matter referring directly or indirectly to the postoffice department including editorial articles.

Citizens always have been exceedingly free with their criticisms of the efficiency of the postal service, and especially so in the last eight years, but Mr. Burleson could never be brought to perceive that an improvement was possible. He took the placid ground that his department *was functioning with admirable* precision and expressed himself to that effect on one or two occasions when palpable deficiencies were pointed out. Mr. Hays is "particularly anxious to have all constructive criticism called to the department's attention," but Mr. Burleson always discouraged criticism, constructive or otherwise.

Mr. Hays is a broad-minded man. He is far-sighted and resourceful, as well as courageous and optimistic. Note his address recently before the Rotarians at Washington, where he was the chief speaker: "Let's have less of 'thou shalt not' and more of 'come on' and 'let's go.'"

There's a lot of business that really is sick, still staggering with the shell shock of war and the debauch of extravagance. What we need is the common sense of courage and confidence. There is the greatest era of expansion and prosperity ahead the world has ever seen. Every one knows this and the only question is when it will start. Well, it's time to go out and meet it.

The scientists may be eminently correct in saying that the world is passing through the tail of a comet, but we always imagined that a comet's tail was gas, not frost.

RAILROADS SHOW IMPROVEMENT.

A better outlook is afforded by the railroad gains showing the carriers steadily advancing in the last two months. Net earnings increased in June to more than $50,000,000, and rose in July to $54,000,000. As a business barometer, the transportation interests furnish a reliable sign of the general course of the nation's activities.

The improvement noted by the principal roads is convincing evidence that business conditions are gradually building up on a sound foundation following the period of readjustment after the abnormal influences of war times. The increasing earnings of the railroads bespeak the growing volume of shipments. Markets are opening for more products. In most lines there is a resumption of normal prices. With complete revival of industrial activity, when mills and mines operate in full force, the corner will be turned for the entire country.

Those who apprehend a continued slackness are no longer warranted in predicting stagnation. The fall outlook is much more favorable than it seemed to them a few months ago.

AUTO'S BROADENING INFLUENCE.

That the automobile has been a potent factor in relieving the farmer of the isolation which was such a drawback to rural life in former years has long been recognized. But its broadening influence is now showing itself in a new way. Farmers are being persuaded through the possession of motor cars to take long trips and see what is being done in other parts of the country. More and more of them are taking tents with them and camping at night instead of going to hotels.

Such tours have great value. They are educational in ways that are not suspected. While the travelers are supposedly concentrating their attention on agricultural things they are at the same time acquiring information which will be useful to them concerning many other matters. And with it all they are refreshing themselves physically as well as mentally.

LIFE'S VAUDEVILLE.

[By Dr. James Ball Naylor.]

THE OLD NATIONAL ROAD.

From the sweet-spelling Maryland meadows it crawled.
Through the forest primeval, o'er hills granite-walled;
On and up, up and on, till it conquered the crest
Of the mountains—and wound into the West.
'Twas the "Highway of Hope!" And the pilgrims who trod
It were "Lords of the Woodland" and "Sons of the Sod;"
And the hope of their hearts was to win an abode
At the end—the far end of the "National" road.

'Twas thus that the Atlantic-coast dwellers left their homes, crossed the mountains, and came as pioneers into the great Middle West.

Of course the vanguard came when there was no national road; came when they had to blaze a trail over the heights and through the unbroken forest. But they constituted a mere trickling stream; the stream became an irresistible flowing river of humanity, after the "National" road was built.

And that river continued to flow and flood for months and years, and empty and spread out over the flat lands of the upper Mississippi and its branches.

They came—and continued to come; afoot, and in ox-drawn and horse-drawn carts and wagons; till the whole land was settled—and the wilderness was completely subdued and civilized.

Today the stream is trickling anew; again it may reach flood stage. And it is flowing farther than ever before; it is *emptying far* beyond the "Father of Waters"—the the heart of the mighty Rockies.

Having grown weary of—
The barren reward the East promised to give—
Grim compulsion to toil and permission to live—
Many city dwellers of the Atlantic seaboard have turned their faces westward, and—
The gate of the mountains sees thousands pass through,
Pressing on, ever on, from the old to the new.

But these modern pioneers are not traveling in carts and wagons; they are making the journey in automobiles. With their household goods and gods, they are on the way. They come from New York City and its environs. They are tired of urban life—with its fierce struggles and strenuous affairs. Many of them are giving up good positions and large incomes — in order to feel more freedom, as they think they will, and have more promising futures.

They are on their way to Idaho.

Says the Ohio State Journal:

"Through the co-operation of the chamber of commerce of Buhl, Idaho, they are buying farm lands in that state, about forty acres to each family. They will be important factors in the development of one of our great commonwealths; and we hope, and do not doubt, that they will prosper there as they could never hope to do in the East, and live to be heartily glad of their choice, as will their descendants."

May it be so!

But the life of these twentieth-century pioneers, despite all modern advantages and conveniences that may be theirs, can not and will not be free from hardships, drawbacks and disappointments. They will gain much; but they will lose much. Their live won't be a bed of roses—until they have made the desert produce the roses. Some of them will stand the gaff—and stick and stay; some of them will grow faint-hearted—and return to the fleshpots of Gotham.

It has ever been so!

It is estimated that at least $10,000,000 in gold is hoarded every year by the native population in India, Africa and Persia, for whom gold has a wonderful fascination. Any gold that comes into their hands as wages, or in any other way, is immediately hidden away.

By the royal marriage act, the Prince of Wales may now—being over twenty-five years of age—marry without the consent of the king. In that case, however, he would have to give notice o his intention to the privy council twelve months before the date of the ceremony. Even then the marriage would only be in order legally so long as both houses of parliament did not disapprove of it.

Cheap Paint is Expensive Paint

Paint is the clothing of a building. It must have sufficient body to resist the repeated attacks of wind and rain and sun. A paint that blisters and cracks permits the elements to begin their destructive work at every break. "Save the surface and you save all. Paint and varnish," but use good paint.

Shepard Paints are the very highest in quality, but not in price. By selling our paints through our own retail stores, we are able to sell at only one small profit above the manufacturing cost. In this way we are also able to see that you get only fresh goods.

Let us help you estimate your job.

WOULD RAISE FUND FOR SOLDIERS' BURIAL PLOT

And Also Endow It for Future Indigent Veterans.

TIMELY SUGGESTION MADE BY CLARA RUEHRMUND

Burial of World War Veteran in Potter's Field Touches an Awakening Note Here.

Offering a contribution of $25, Miss Clara Ruehrmund, of No 189 west Church street this morning in a letter to the Star suggests the raising by popular subscription of a fund for the purchase of a large cemtery plot for the burial of homeless and penniless World war veterans and an endowment fund for the purchase of headstones with which to mark the graves of these men.

Miss Ruehrmund's letter resulted from the story in Monday's Star of the burial of Dwight Wells Artis, World war veteran, in the potter's field and the arrangements that are being made to disinter the body and bury it in another part of the cemtery on Armistice day. Her letter reads.

A Thoughtful Letter.

"Doubtless all Marion regrets that 'A World War Veteran' was laid to rest in the potter's field To right this wrong and guard against a recurrence let us raise a fund to buy as large a lot as possible in our crowded cemetery and to place at least $1,000 on interest at five per cent or more to buy headstones—headstones that were $20 or $40 before the war are now $100 and up

"I start the fund with a promise of $25 Now times are hard and people are very tired of giving giving, giving Besides, they want an honest accounting for what they give I suggest that the young people—scouts and school children included—take this matter up

"Don't let them go around to the housekeepers begging That is bad for the beggars and the begees They could have receptacles in all the churches and Sunday-schools and the ministers could announce the object of the fund Banks and stores would help along Let the contributions be ten cents or more"

CIVIL WAR MARCHING DAYS AGAIN RECALLED

When G. A. R. Post Members "Go on Parade."

MARCH IS FEATURE OF POST'S MEETING

Picnic Date Set for September 15 and Place as Garfield Park.

The committee on arrangements for the picnic of Cooper Post, No 117, G A R, announced September 15 as the date set for the picnic, at the meeting of the post Monday afternoon, in the Junior Order hall The picnic will be held at Garfield park and members of the Woman's Relief Corps and the Daughters of Veterans are invited to attend

General orders from the department and national commanders were read concerning the National G A R encampment, to be held in Indianapolis, September 25 to 30 J H. Buchanen, a member of the post, was reported seriously ill.

E S Barkley, of Forest, was a guest of the meeting and responded to a call for a speech

A splendid musical program was given by the members of the drum corps, and at the suggestion of John Barkley, who declared "it was a shame to let all that good music go to waste," Commander G. W. Williams gave permission for a squad to be formed to march up and down the hall

About twenty-eight of the able-bodied veterans marched, keeping step to the music as in the days of sixty-one to sixty-five. Thirty-three members were present at Monday's meeting

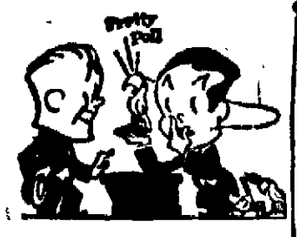
The Mystery of the Cook's Pet Parrot



A FUNNY paper recently.
SLIPPED ME a good laugh.
WITH A wheeze about.
A FAMOUS ventriloquist.
AND WHY he had quit.
THE VAUDEVILLE stage.
IT SAID he discovered.
HE COULD make more jack.
SELLING WOODEN parrots.
SO WHEN I got home.
I PASSED the joke.
TO OUR cook, who owns.
BOTH A speechless parrot.
AND A sense of humor.
BUT SHE muffed it.
BECAUSE SHE didn't know.
WHAT A ventriloquist was.
SO I had to explain it.
AND ON the way out.
I BLEW just a whiff.
OF CIGARETTE smoke.
AT HER amusing old.
FOOL OF a parrot.
WHICH NEVER talks.
AND I said, "Poll.
HOW D'YOU like it?"
AND TO this day.
IT'S GOT me guessing.
WHETHER IT was cook,
OR THE blamed bird.
WHICH SQUAWKED back.
"THEY SATISFY."

CHESTERFIELDS speak for themselves. They let you know you're smoking. They "satisfy" and yet, they're *mild*. An impossible combination, you say? Sure—everywhere but in Chesterfields. The blend does it and the blend *can't be copied!*

THOMAS AND WHITE REACH TENNIS FINALS

They Will Play Against Each Other Tomorrow.

WHITE SMALL, WIRY; THOMAS RANGY, AGILE

Howard R. Stoll, Champion, Will Meet Winner Thursday at 3 P. M.

Edgar Thomas and Robert White came through victorious in the semi-final round of the Clark cup singles tourney yesterday and will compete in the final round which is to be played tomorrow afternoon at 3 o'clock. The winner of the final set-to will play Howard R. Stoll, present title holder of the club, in the challenge round at which time Mr. Stoll will defend his hold on the three-year cup presented by W. D. Clark. The challenge fray will be staged Thursday afternoon at 3 o'clock.

In the semi-final matches yesterday Edgar Thomas defeated Gilman Allen in a well-played and closely contested battle. Thomas, who exhibited such a wonderful game against John Hane Sunday, was up to form and displayed his usual skill at the net, where he plays his strongest game. Allen put up an excellent fight, winning the first set with a score of 6-4. Thomas retaliated, however, taking the last two in rather easy fashion with scores of 6-2, 6-3.

Plays Nice Game.

Thomas plays a skillful game at the net, which, combined with a perplexing service and ability to get, pronounces him a player to be feared. Allen, who is one of the best of the younger players in the club, displayed a good exhibition of tennis yesterday, but was unable to stop his more skillful opponent. In the other semi-final match Robert White downed Dale Miller in two sets with scores of 6-4, 9-7. Miller is a good getter and gave White a close battle in both sets, but White who is an old head at the game, has ability to stroke the ball, and won from his opponent by the effective using of a classier game.

Rest for Them Today.

Tournament play is to be suspended today in order to give the two contestants, who have been playing hard all week, a chance to rest up before playing the finals.

Stoll, champion of the club, has been working out on the courts almost daily and will be in fine fettle to meet the challenger whoever he may be. The final contest tomorrow promises to be an interesting match. Thomas is a rangy and agile player whose big game is played at the net. He is, however, the possessor of a good service and has ability to get the ball either on his fore and back hand.

White is small and wiry, with the ability to stroke and place the ball from the backlines, and many believe that if he can keep Thomas away from the net by fast and well placed drives his chances of winning are given a decided boost.

Both players are experts at tennis and have won their way to the finals by delivering proper stuff and, if for no other reason than this, the match promises to be a good fight in which neither contestant will give up without a battle.

Mr. and Mrs. Harry Barnhart, Edgar and Mary Katherine Barnhart, of west Church street returned Sunday from a week's visit at Lakeside.

VEIOCK ON SPORTS

Forest Hills, Long Island, Aug. 16.—Mlle Lenglen will start her drive for the American women's tennis championship here today. The great Suzanna is accustomed now to the feel of good American soil beneath her "trilbies" and with two days of practice is ready to play her first-round match. France's "wonder girl" was scheduled to play Miss Helen Goss, of New York, in one of the feature matches of this afternoon's program and was the unanimous selection of the critics for the victory.

Later in the day, the schedule called for a doubles match with Mlle Lenglen and Mrs. Molla Bjurstedt Mallory paired against Miss Margaret Grove and Miss Phyllis Walsh.

Another feature match on today's schedule brought Miss Mary K. Brown and Mrs. DeForest Candee together. Miss Eleanora Sears and Miss Edith Sigourney, both of Boston and Miss Leslie Bancroft and Mrs. Benjamin E. Cole, also of the Hub, were the other players booked for the exhibition courts.

Bright, pleasant weather was the order again today and the officials of the United States Lawn Tennis association were confident that the second round would be finished with the same dispatch that marked the disposal of thirty-two first-round matches yesterday. For the most part, favorites came through first-round matches, according to expectations, Monday. Mrs. Mallory's well-earned victory over Mrs. John Jessup was the star match of the day. The national champion exhibited the same great brand of tennis for which she has become famous and her disposal of Mrs. Jessup in straight sets in a match that was full of thrills during the first half stamped the champion as the one big hope against Mlle Lenglen.

A Match Today.

Forest Hills, Long Island, Aug. 16.—Mlle Suzanna Lenglen and Mrs. Molla Bjurstedt Mallory, the American national champion, will have it out on the courts of the West Side Tennis club here, this afternoon, to decide the supremacy between them.

The Lenglen-Mallory match was brought about through the default, today, of Miss Eleanor Goss, of New York, to the French star. Announcement that Mlle Lenglen would meet Mrs. Mallory in a second-round match today was made by Joseph Jennings, the referee.

The default of Miss Goss to France's wonder girl was brought about through illness. Mlle Lenglen was to have played Miss Goss today at 4:15 o'clock. Instead, she will now meet Mrs. Mallory at the same hour.

WITH THE PUGS

With Left Hand.

Columbus, Aug. 16.—The work done by his left hand won for Johnny Karr, 149-pound Cleveland welterweight, over Jack Ferry, Boston, 147, in a fifteen-round bout here. Three rounds ended even, six rounds went to Karr and six to Perry, but the judges' decision went to Karr. Perry was the aggressor and took Karr's attacks in good shape, although cut about the face. There were no knockdowns.

Last Night's Fights.

At Jersey City—Panama Joe Gans won a technical knockout over Carl Herts in the sixth round of a scheduled twelve-rounder.

At New York—Dick Griffin, Texas battler, won a judges' decision over Phil Franchini in twelve rounds. Eddie Leonard won a decision over Buck Josephs in ten rounds.

Would Halt Downey-Wilson Bout.

New York, Aug. 16.—Johnny Wilson of Boston and Bryan Downey of Cleveland will be unable to settle doubts as to the middleweight boxing championship in Jersey City on Labor day if reformers who tried in vain to prevent the Carpentier-Dempsey fight have their way. The International Reform bureau announced that its officers would confer with its attorneys to discuss measures to prevent the contest. The bureau has no objection to ordinary bouts it announces, but will seek to prevent championship contests.

BASEBALL

Tagging the Bases.

Lee Meadows and his specs properly adjusted and cut so many corners that the Giants lost a ball game and another opportunity to creep up on Pittsburgh.

The Indians made but three hits off Hodge, of the White Sox, but McWeeny, who preceded Hodge, gave three passes in a row that spelled victory for Speaker's men.

"Baby Doll" Jacobson singled in the ninth against Dauss of the Tigers and Ellerbe brought home the run that gave the Browns a victory.

Ty. Cobb, a fairly well known figure in baseball, was banished in the seventh inning by Umpire Connolly for disputing a decision.

Officer's Leg Broken.

Camp Perry, O., Aug. 16.—Major Robert S. McPeak of Columbus suffered a broken leg when he attempted to leave his bed at the hospital. He fell in walking across the floor. Four privates were sent to the hospital suffering minor injuries, the result of accidents.

MR. A. H. MacMILLAN

MR MacMILLAN has just returned from a neight months' tour of Great Britain, France, Belgium, Germany and Scandinavia. He is a very close observer and student and has a fund of intensely interesting information concerning conditions in Europe, Canada and the United States, which greatly strengthens his contention that the old "world" (the old order of things) has ended, and that the new "world" is being ushered in.

In a FREE LECTURE at the Armory Wednesday Evening, it will be conclusively proved by many Biblical prophecies, which have been fulfilled during the past five years, and from many others still in course of fulfillment that thousands living in this vicinity will never die.

The Scriptures abound in time prophecies indicating when such events as have distressed mankind during the past few years, and the opportunity for profiteering in all its phases, forever ends.

The divine law is inexorable and every inspired revelation of the divine purpose respecting the affairs of the Old World, over which Jehovah, for a special purpose tolerated Satan to rule, has been fulfilled exactly on time, and the time for the binding of Satan is at hand.

Every Bible scholar is aware, (whether it is now or one hundred years hence), that mankind will some time arrive at the end of Satan's reign, when everlasting life on this earth can be his blessed portion, instead of death and the tomb as has been the case under Satan's six thousand years of evil dominion and delusion.

The purpose of this free lecture is to furnish every inquirer positive Biblical proof and secular evidence, based on prophecies fulfilled during the past five years, that we will within the next few years enter this long hoped for period, when families will be reunited and live happily on earth, ever after.

"KEEP COOL." CAUTION OF ERIE SHOP CRAFTS

Workers Deny There Is Any Strike in Marion.

ISSUE DODGER OUTLINING THEIR SIDE OF STORY

Claim National Agreement Is Violated—Federal Board Is Without Information.

Eight of the shop crafts of the Erie were largely represented at a meeting held in the machinists' hall on north Main street, Monday evening, when the labor situation as concerns the Erie employes of these crafts in the city was discussed.

The principal object of the meeting was to counsel the men to keep cool and not to raise any commotion or start trouble in any way. The general committee of the shop crafts reported that no action of any kind will be taken until the decision of the labor board in Chicago is handed down, and that things were progressing as well as could be expected under the circumstances.

Publicity Committeeman Talks.

One of the members of the publicity committee stated this morning that quite a number of men, probably between fifty and seventy-five, were imported here in the last day or two to take the places of the men discharged. He stated that the crafts had pickets out to inform the newcomers of the conditions that were existing and that as a result only a very small number of these imported laborers went to work.

It was stated the majority of these men who declined to take the places of the discharged men said that they misunderstood the situation.

According to this same committeeman, several boilermakers came here from the Lima shops, Monday, and five of the number returned after informing the local men that they would see no more men came here from that place.

Posters Are Posted.

Posters are conspicuous about the city and especially about the Erie yards which fully explain the grievances of the men. These posters are under date of August 12, 1921, were put out by the Local System Federation, No. 7, Erie Railroad company and are as follows:

Our Side of the Story.

The employes at this point are refusing to submit to physical examination which would be a violation of our national agreement, and protesting the elimination of the overtime rates, agreed to by the railroad company at the expiration of federal control, which is also a violation, and are being discharged by the company for protesting. The railroad company has continued to ignore the ruling of the United States labor board, which is a federal law.

Committeemen: T. A. Clawson 194 silver street, machinist; H. G Mattheys, Avondale avenue, boilermaker; C. M. Carpenter, 552 Blaine avenue, fireman and oiler; R. W Sollinger, 359 Monroe street, blacksmith; E. A. Shultz, 477 Wilson avenue, sheetmetal worker; B. W. Enos, 242 Thew avenue, electrician; C Parr, 869 Bennett street, clerk; S R. Beatty, carman.

Not on Strike.

The present condition is not a strike, although it has been misconstrued by many as such. A trip through the yards and in the roundhouse and shops gives no impression of any labor trouble. The Erie has a large number of the members of its detective force and some special men employed in the yards and about the shops merely to protect the property and guard against any possible trouble that might arise, but they have had nothing to do.

At the time the Erie was compelled to reduce its force in March on account of the general business depression, about 600 men of all crafts were employed at the roundhouse and shops. A considerable number had to be laid off because of the lack of business and since the refusal of the men to take physical examinations and work for straight time on Sundays and holidays, it is estimated that about 175 were discharged for the latter causes. Less than half of the force of a month ago was at work today, according to one of the officers of the railroad.

Federal Labor Board

Members of the United States railway labor board, today, were without definite official information concerning the recent transfer of the Erie shops at Marion to the Railway Service company, a private concern, and the impending sale of the Rock Island shops at Silvis, Illinois, to the Baldwin Locomotive work. In what is alleged in some quarter sto be attempts on the part of the carriers to evade the recent wage ruling continuing the national working rules, with a view to eliminating time and a half for overtime, says an International News Service wire from Chicago to the Star.

These moves are not new in recent railroad operation, a member of the board pointed out, several eastern lines previously having "farmed out" some of their repair work to cut down overtime wages.

Relative to intervention by the labor board, the member said that the board would have to find out that there was a general movement on foot to violate the Esch-Cummins transportation act in this manner, before action would be taken. Lacking official information the board has not even discussed the matter, he said

Big Four Brotherhoods.

Representatives of the "Big Four" brotherhoods and heads of the switchmen's union in conference here today with officials of the railway executive association presented wage demands of employes on the western lines, similar to those presented to and subsequently rejected by the executives of the eastern lines recently.

The conference was still in session at 1 o'clock this afternoon and no announcement as to what the railways' answer would be was forthcoming, but indications were that the demands would meet the same reception here as in the East and Southeast—rejection.

The brotherhoods, in their demands, ask cancellation of recent wage reductions, cessation of opposition to time and a half for overtime and assurance of no future wage cuts.

The labor organizations represented at today's conference are the Brotherhood of Railway engineers, the Brotherhood of Railway firemen, the Brotherhood of Railway conductors, the Brotherhood of Railway trainmen constituting the "Big Four" and the railway switchmen.

No General Policy.

An International News service from New York to the Star today says:

The Erie railroad is not acting in behalf of American railroads generally in attempting to divorce its repair shops from the railroad proper, it was learned at the office of the American association of railway executives today.

E. F. Nordt, of the executive staff of the association, declared that while the step would be "closely watched," it is the act of the Erie alone and not at all connected with the association.

The statement followed announcement that the Erie had released its repair shops in Marion, Ohio, to a local company, thus taking employes of the shop out of the jurisdiction of the railway labor board.
